TECHNOLOGIES

# Eco Range

An entirely new range of Australian designed & manufactured security power products specifically designed to conserve precious resources - both manufacturing and operational

Smaller, lighter & more efficient - the all new Eco Range includes 13.5Vdc & 12Vdc models with high output battery chargers and high efficiency, small footprint 24Vac models for CCTV

TECHNOLOGIES

Australia's Premier Security Power Specialist

# Eco Range

## Part of the comprehensive family of Tactical Security Power Products

Long term power consumption over the life of modern security systems can be significant. Tactical Technologies Eco Range models are substantially more efficient than the models that they replace, providing direct energy savings - with the added benefit of very low thermal output / environmental load and of course legendary Tactical reliability.

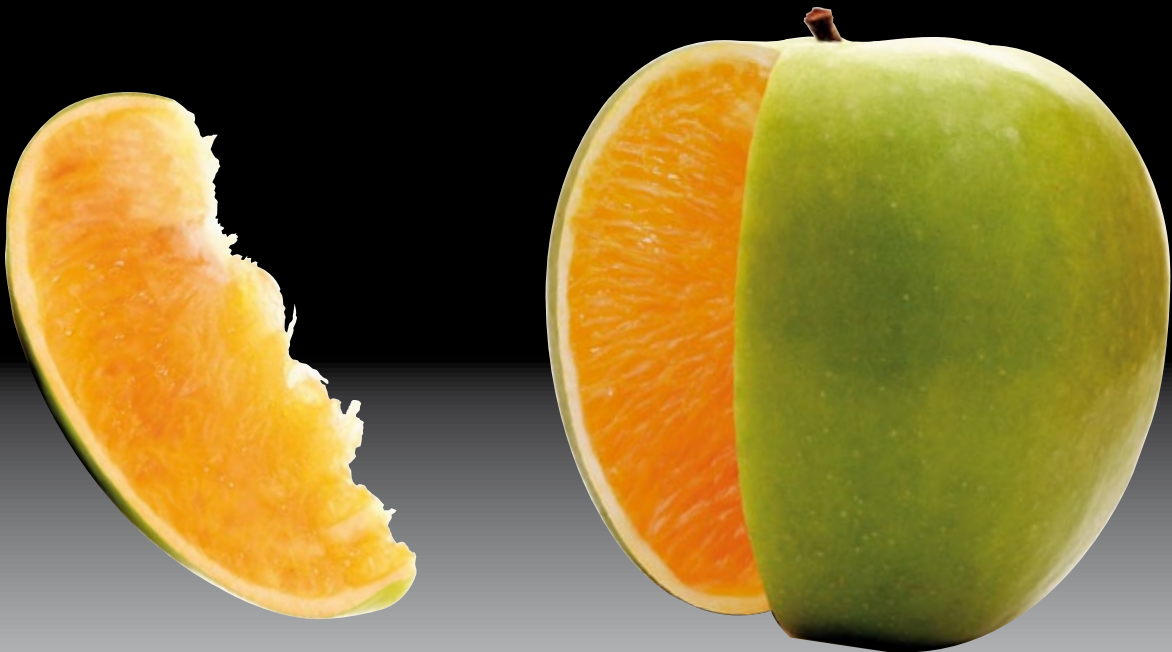

Available in 12Vdc, 13.5Vdc and 24Vac configurations, Eco Range models are designed, manufactured and supported in Australia, by a 100% Australian owned company.

With a hard won reputation for rugged reliability, Tactical Technologies prides itself on providing the marketplace with world class products conceived to operate in the harshest conditions on the planet - why trust your critical systems' operation to cheap, often poorly designed imports ?

Visit [www.tac-tech.com.au](http://www.tac-tech.com.au) or ask your Authorised Tactical Distributor for more details.

## Tactical Technologies - Australia's Premier Security Power Specialist

*"Comparing apples with apples" has perhaps never been more apt than when selecting the correct power supply for modern electronic security systems*

*Whilst many security power products may appear the same at first glance, it's what's inside that can mean success or failure for your entire system - don't risk cheap imports, trust Australian designed & manufactured Tactical security power products*

## 12V DC Eco Range Models

Specifications subject to change without notice

Model	Features
TPS12-2.5DC	12Vdc 2.5A Power supply with on-board battery charger, AC Fail & Low Battery Outputs ( Module Only )
TPS12-2.5DCB	TPS12-2.5DC with single output in Small Cabinet (250W x 310H x 100D mm)
TPS12-2.5DC-BX	TPS12-2.5DC with single output in Medium Cabinet (340W x 436H x 146D mm)
TPS12-2.5DC-BD10	TPS12-2.5DC with 10 x 250mA outputs in Small Cabinet (250W x 310H x 100D mm)
TPS12-2.5DC-BXD10	TPS12-2.5DC with 10 x 250mA outputs in Medium Cabinet (340W x 436H x 146D mm)
TPS12-5DC	12Vdc 5A Power supply with on-board battery charger, AC Fail & Low Battery Outputs ( Module Only )
TPS12-5DCB	TPS12-5DC with single output in Small Cabinet (250W x 310H x 100D mm)
TPS12-5DC-BX	TPS12-5DC with single output in Medium Cabinet (340W x 436H x 146D mm)
TPS12-5DC-BD10	TPS12-5DC with 10 x 500mA outputs in Small Cabinet (250W x 310H x 100D mm)
TPS12-5DC-BXD10	TPS12-5DC with 10 x 500mA outputs in Medium Cabinet (340W x 436H x 146D mm)
TPS12-5DC-ME	TPS12-5DC with single output in Large Cabinet (480W x 465H x 180D mm)
TPS12-5DC-MED10	TPS12-5DC with 10 x 500mA outputs in Large Cabinet (340W x 436H x 146D mm)
Note: These models represent standard Eco Range variants. See website for additional models	

## 13.5V DC Eco Range Models

Specifications subject to change without notice

Model	Features
TPS13-2.5DC	13.5Vdc 2.5A Power supply with on-board battery charger, AC Fail & Low Battery Outputs ( Module Only )
TPS13-2.5DCB	TPS13-2.5DC with single output in Small Cabinet (250W x 310H x 100D mm)
TPS13-2.5DC-BX	TPS13-2.5DC with single output in Medium Cabinet (340W x 436H x 146D mm)
TPS13-2.5DC-BD10	TPS13-2.5DC with 10 x 250mA outputs in Small Cabinet (250W x 310H x 100D mm)
TPS13-2.5DC-BXD10	TPS13-2.5DC with 10 x 250mA outputs in Medium Cabinet (340W x 436H x 146D mm)
TPS13-5DC	13.5Vdc 5A Power supply with on-board battery charger, AC Fail & Low Battery Outputs ( Module Only )
TPS13-5DCB	TPS13-5DC with single output in Small Cabinet (250W x 310H x 100D mm)
TPS13-5DC-BX	TPS13-5DC with single output in Medium Cabinet (340W x 436H x 146D mm)
TPS13-5DC-BD10	TPS13-5DC with 10 x 500mA outputs in Small Cabinet (250W x 310H x 100D mm)
TPS13-5DC-BXD10	TPS13-5DC with 10 x 500mA outputs in Medium Cabinet (340W x 436H x 146D mm)
TPS13-5DC-ME	TPS13-5DC with single output in Large Cabinet (480W x 465H x 180D mm)
TPS13-5DC-MED10	TPS13-5DC with 10 x 500mA outputs in Large Cabinet (340W x 436H x 146D mm)
Note: These models represent standard Eco Range variants. See website for additional models	

## 24V AC Eco Range Models

Specifications subject to change without notice

Model	Features
TPS24-4AC-D2	24Vac 4A Power supply in Small Cabinet with 2 x 2A Auto-resettable outputs (205L x 140W x 75H mm)
TPS24-4AC-D4	24Vac 4A Power supply in Small Cabinet with 4 x 1A Auto-resettable outputs (205L x 140W x 75H mm)
TPS24-4AC-D8	24Vac 4A Supply in Small Cabinet with 8 x 500mA Auto-resettable outputs (205L x 140W x 75H mm)
TPS24-6AC-D2	24Vac 6A Power supply in Small Cabinet with 2 x 3A Auto-resettable outputs (205L x 140W x 75H mm)
TPS24-6AC-D4	24Vac 6A Power supply in Small Cabinet with 4 x 1.5A Auto-resettable outputs (205L x 140W x 75H mm)
TPS24-6AC-D8	24Vac 4A Supply in Small Cabinet with 8 x 750mA Auto-resettable outputs (205L x 140W x 75H mm)
Note: These models represent standard Eco Range variants. See website for additional models
